DETAILED ACTION

1. Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 1, line 5, "the bottom side thereof" lacks antecedent basis. In claim 1, line 8, "the top side thereof" lacks antecedent basis. Finally in claim 1, line 19, "the operator" lacks antecedent basis. In claim 8, line 4, "the bottom side thereof" lacks antecedent basis. In claim 8, line 7, "the top side thereof" lacks antecedent basis. Finally in claim 8, line 11, "the operator" lacks antecedent basis. In claim 9, line 4, "the bottom side thereof" lacks antecedent basis. In claim 9, line 7, "the top side thereof" lacks antecedent basis. Finally in claim 9, line 11, "the operator" lacks antecedent basis.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 8 is rejected under 35 U.S.C. 102(b) as being anticipated by JP 2001-259743. JP '743 teaches the claimed invention including an upper and lower table 7/11, a navigating member 47, a traveling actuator 33, 35, 37, 39, and 41, a traveling actuator controller at 43/45 and a mold layout determiner at 61.

3. Claims 1-7, 9, and 10 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David B. Jones whose telephone number is 571 272 4518.
